

## **Eastman Auto & Power showcases cutting-edge Solar & EV solutions at REV Expo 2025**

- *Eastman Auto & Power's extensive portfolio of Solar & EV solutions reinforces its commitment to a sustainable future*

**Chandigarh, 13<sup>th</sup> March 2025:** Eastman Auto & Power, a leading provider of power solutions, marked a significant milestone at the third edition of the REV Expo (Renewable Energy and Electric Vehicle), held at Exhibition Ground in Chandigarh. The REV expo is focused on solar energy, energy storage, EVs, and charging infrastructure, and it connects industry leaders, entrepreneurs, and sustainability advocates to drive the future of clean energy and sustainable mobility. The exhibition provided a unique platform to Eastman to unveil its cutting-edge solar solutions and reinforce its commitment to a sustainable energy future for India.

With innovative Solar & EV solutions on display, Eastman's booth demonstrated its commitment to powering India's shift towards renewable energy and Electric Vehicle Solutions. The company's offerings directly address the rising demand for clean, efficient, and cost-effective power sources. Eastman's stall provided immersive experience for the visitors, providing them with interactive demonstrations of their products and the opportunity to engage with experts on sustainable solar solutions.

**Mr. Shekhar Singal, Managing Director of Eastman Auto & Power Ltd.** Said, "As One of the leader in Energy Storage Solutions, REV Expo offers a dynamic platform to engage with like-minded energy sector leaders. Our customized, end-to-end Solar Energy Products empower homeowners, businesses, and communities to meet their unique needs while driving a cleaner future. With the growing demand for Lithium batteries, we are at the forefront of sustainability, serving diverse sectors such as Solar, EV, Telecom, and more."

### **Key products shown by Eastman Auto & Power at the REV Expo included:**

- **Grid Tie Inverters:** High-efficiency Grid Tie Inverters ranging from 3 KW to 110 KW (Covering Single Phase & Three Phase) convert solar energy into usable electricity, maximizing savings and reducing grid reliance.
- **SOLAR Inverters:** Specially curated Solar Inverters ranging from 950 VA to 10 KVA providing reliable backup power for outages or off-grid applications.
- **Bifacial Solar Panels:** Innovative Bifacial Solar Panels capture sunlight from both sides, maximizing energy generation and efficiency.
- **Solar Batteries:** High-performance Solar Tubular Batteries ranging from 150Ah to 260Ah ensuring consistent and reliable energy storage for solar systems.
- **Lithium Batteries for Electric Three Wheelers:** High Power & Superior Performance Lithium Batteries for Electric Three Wheelers ranging from 105 Ah to 305 Ah.

Eastman Auto & Power is leading India's transition to sustainable energy by providing affordable, reliable solar solutions for residential, commercial, and rural sectors. Their participation in REV Expo 2025 highlights the commitment to innovation and collaboration with industry leaders, government, and local communities to accelerate renewable energy adoption. Through these efforts, the company is envisioning as 'Global Leader in Energy Storage Solutions'

### **About - Eastman Auto & Power Ltd:**

Established in 2006 Eastman Auto & Power Limited (EAPL), is an innovator in the energy transition space addressing both energy generation and utilization. As a leading power solutions provider, Eastman specializes in Last Mile E-Mobility Solutions, Solar Solutions and Continued Energy Solutions.

EAPL offers a diverse range of energy value propositions, including technology-agnostic storage solutions and a wide range of power conversion products for solar and backup applications. The company employs over 3400 people and operates eight manufacturing units across India. It has a 25GW annual manufacturing capacity and a presence in 50+ countries. Known as the largest manufacturer of solar tubular batteries in India, Eastman and sister brand Addo, serve over 400 OEM partners through a robust distribution network of over 1000+ distributors across India, ensuring widespread availability and after sales service of its products through 3300+ service partners and reach over 350 districts across the country.
