

Powering a Greener Tomorrow: Eastman Brings Solar Energy Solutions to Amazon India

- *Customers can now purchase Eastman's solar panels, inverters, batteries and home UPS systems online via Amazon India.*

New Delhi, 25th July, 2025: Eastman Auto & Power Limited (EAPL), a leading name in innovative and sustainable energy solutions, has announced its strategic partnership with Amazon India to make its cutting-edge solar products available online. This move marks a significant step in Eastman's digital transformation journey, aiming to bring high-quality, clean energy solutions directly to customers' doorsteps across the country.

Under this collaboration, customers can now conveniently purchase Eastman's flagship solar and power backup products on Amazon.

The range includes:

- **Solar PCUs** – PWM & MPPT based Solar Off Grid Inverters
- **Solar Panels** – Mono-Perc, Bifacial & TopCon Technology
- **Home UPS** – Sine Wave & Square Wave Inverters
- **Lead Acid Batteries** - Solar & Residential Backup

Speaking on the partnership, **Mr. Shekhar Singal, Managing Director, Eastman Auto and Power Ltd** said *"At Eastman, our vision has always been to empower every household and business with clean, efficient, and dependable energy solutions. This partnership with Amazon marks a significant step forward in that direction. By making our solar panels, inverters, batteries and home UPS systems available online, we are eliminating barriers to accessibility and ensuring that quality solar products are just a click away for millions of customers across India."*

"As demand for sustainable energy continues to grow, we believe that digital platforms like Amazon will play a key role in enabling widespread adoption. Together, we aim to make solar energy simple, convenient, and affordable — accelerating India's journey toward energy independence and a greener future."

This collaboration reflects Eastman's mission to empower a sustainable and energy-resilient future, while aligning with Amazon's commitment to offering environmentally responsible choices to its customers. By leveraging Amazon's expansive reach and Eastman's trusted portfolio of solar solutions, the partnership aims to accelerate the adoption of clean energy across India — making sustainable living not just a possibility, but a convenience. Together, both companies are paving the way for smarter, greener lifestyles powered by innovation and accessibility.

About - Eastman Auto & Power Ltd: Eastman Auto & Power Limited (EAPL) is a leading player in the energy transition space, offering innovative solutions across energy generation, storage, and utilization. The company operates in three key verticals: LastMile E-Mobility, Solar Solutions, and Continued Energy Solutions. Eastman delivers a wide range of technology-driven products, including energy storage systems and power conversion solutions designed for solar and backup applications. With a strong manufacturing base and an expanding global footprint, the company is committed to driving clean, accessible, and reliable energy solutions. Backed by a deep-rooted distribution and service network, Eastman partners with OEMs and end users to deliver seamless energy experiences. Through continuous innovation and customer-centricity, the company is helping accelerate the shift toward sustainable and self-reliant energy ecosystems — both in India and internationally.
